

AdminUSA delivers a worry-free FSA account solution you can confidently offer to your clients.

Your reputation for bringing high-quality plans backed by reliable companies is essential to your business success. The same is true for us, which is why we've partnered with Evolution1 to bring you the industry's leading consumer-driven healthcare account solution that is used by 7 million consumers.

As the cost of corporate healthcare rises, so does the demand for consumer-driven healthcare plans. According to BearingPoint, 15.5 million people in the U.S. will be enrolled in FSA accounts by 2011. Although that is a slight decline over current FSA enrollment rates, growth in HRA accounts that are often stacked with FSAs is projected to increase to 27.3 million by 2011. Employers looking to expand their consumer-driven healthcare account options will continue to demand flexible FSA plan designs.

FSAs offer great benefits!

- Employees enjoy federal tax deductions on contributions and tax-free reimbursements on qualified expenses
- Employers can easily stack FSA accounts with HRA and HSA accounts, customize them to meet their unique needs, and manage them using one, integrated portal

At AdminUSA, delivering easy-to-use solutions backed by the highest levels of service is our top priority. We offer a cloud computing solution designed to provide you and your clients with the functionality, reliability and integration you need to offer worry-free consumer-driven healthcare accounts. And, you can be assured we'll support you with the highest levels of IT expertise and regular additions of new, productivity-enhancing features.

We help you offer worry-free FSA accounts to retain and grow your book of business and increase client satisfaction

Flexible spending accounts (FSAs) are one of a number of tax-advantaged financial accounts that can be set up through a cafeteria plan of an employer in the U.S. An FSA allows an employee to set aside a portion of his or her earnings to pay for qualified expenses as established in the cafeteria plan, most commonly for medical expenses, but often for dependent care and other expenses. Money deducted from an employee's pay into an FSA is not subject to payroll taxes, resulting in substantial payroll tax savings.

You can easily add your logo and company information, helping to reinforce your brand value to employers and consumers.
